

SANE Service Agreement Templates

This document provides links to a variety of templates for SANE Service Agreements, which are used by hospitals/communities that contract with an independent SANE entity. For example, we have provided a template contract between an Independent Forensic Entity and the City that seeks to contract for forensic services. We've also provided templates on the insurance requirements for consultants and contracts, as well as sample MOU's. These templates can be adapted to fit the needs of your community.
